

BlueBridge Networks Awarded Cleveland Metropolitan School District Contract

Cleveland – July 6, 2010 – BlueBridge Networks LLC, a leading provider of business continuity services, announced today that BlueBridge Networks has been selected to provide data center services for the Cleveland Metropolitan School District’s (CMSD) core high density computing operations.

“BlueBridge Networks was able to collaborate with us and continue to provide a high performance computing environment,” said Joseph Podach, CMSD Deputy Chief of Operations. “BlueBridge Networks is a world class data center providing the district with ready access to the highly available fiber and robust power infrastructure necessary to implement our network and server equipment. We look forward to continuing our strong relationship with BlueBridge Networks. The potential for forging and expanding relationships with current BlueBridge Networks’ partners and clients such as One Community, Platform Lab of the Third Frontier Network and Case Western Reserve University contributes to BlueBridge Networks selection for the District.”

“BlueBridge Networks is committed to providing our customers with technology solutions aimed at solving today’s most complex IT business challenges,” said Jeff Levine, President and Chief Executive Officer of BlueBridge Networks. “By partnering with BlueBridge Networks, the Cleveland Metropolitan School District will benefit from minimized downtime, reduced costs and ensured business continuity. We will continue to invest in infrastructure and partner with world-class technology companies, signifying our strong commitment to the region and our customers,”
